EXPERIENCE

System Administrator   **02/2024 - Present Day**

Company: Atlantic City Federal Credit Union

- Overhauled network infrastructure to implement VLANs in multiple locations, to segment the network, thereby improving the security of the network.
- Managed and maintained 100+ Microsoft Hyper-V virtual machines, Ubuntu servers, and Windows 11 Endpoints. Created automations for patch management, software deployment/uninstallations, settings and more.
- Designed and implemented Azure cloud infrastructure to create a failover for key servers and databases.
- Maintained backups and performed disaster recovery tests to maintain and ensure the integrity and availability of customer data.

Computer Technician   **10/2021 - 01/2023**

Company: TAMS Computer Recycling and Sales

- Processed ~450+ computers monthly, generating an estimated $630,000 in profit over the course of my employment. Tested every machine with Ubuntu, imaged Windows 10 on said machines.
